

TABLE OF CONTENTS

1. The Porosity of Agglomerates Wolfgang Pietsch	1
2. The Use of Near Infra Red Technology to Map Roller Compaction Processing Applications Ronald W. Miller.....	17
3. Selection of Proper Roll Press Operating Parameters Roman T. Dec	29
4. Process Technology and Equipment Selection Albert Shohet	37
5. Influence of Humidity During Compression and Storage on Tablet Properties Karl Sommer and Jorg Zimmer	47
6. Determination of Velocity of Powder in the Roll Nip Region of a Laboratory Roll Press Using Video Analysis Olivier Simon, Georges Turini, and Pierre Guigon ..	67
7. Flow and Compression Properties of Feed Solids for Roll-type Presses and Extrusion Presses Karl Sommer and G. Hauser	79
8. Continuous Fluid Bed Processes for Granulation and Agglomeration Sebastion Pfutze	91
9. Theory and Application of Binders: An Update Thomas R. Marrero	103
10. Lignosulphonates for Agglomerating Metallurgical Ores and Wastes Steven Humphrey	111
11. The Use of Synthetic Polymeric Organic Binders in the Minerals Industry Martin Neale	121
12. The Effect of Fractionation on the Performance of a Lignosulfonate Binder Steven Dickman, Shane Resch, Sturat Lebo, Jr., Chris Kozicki, And Ron Eichhorn	131
13. Recovery of Nickel Laterite Fines by Extrusion Alexy Duarte and W. E. Lindquist	139

14. Sewage Sludge Treatment Patrick Lecherf	153
15. Hexadur - A Novel Wear Protection for Tools of Roller Presses Norbert J. Klinker	167
16. Low Pressure Extrusion & Spheronization C. Pretorius and Peter M. Koenig	179
17. The Use of Agglomeration in the Lightweight Aggregate Industry S. M. Cohen and M. E. Prokesch	189
18. Preconditioning with a Pin Mixer Bill Lemke	199
19. Adding Value with Agglomerated Waste Materials Brian C. Young	207
20. Influence of Thermal Treatment and Handling Conditions on Fired Pellet Physical Properties Tom I. Martinovic and Michel Garant	219
21. How Agglomeration Techniques Contribute to the Recycling of Sludges Pascal Hervieu and Pierre Guigon	231
22. Mobile Briquetting Plant and Experiences with Running a Large Scale Briquetting Test for BOF and Blast Furnace Briquettes James T. Lewis III	243
